

**UP & COMINGS  
2013**

**NUKLEA** - supplier's exhibition of nuclear energy  
From October 01st to 03rd  
Come and discuss your issues with our engineers - Booth O14

**KHIMIA 2013**  
From Oct 28th to 31st  
17th International Exhibition for Chemical Industry  
You are welcome to our booth Hall1 - Pav2 - n°21E36

**Guichon is not afraid of vacuum conditions !**

Do your valves work under vacuum conditions ?  
Guichon Valves proposes technical solutions to maintain a high quality of tightness between the fluid and the atmosphere.

In the case of critical applications involving severe service conditions such as Pharmaceuticals, Chemicals, Polymers, ... using a vacuum tight valve can provide additional security and prevent any risk of leakage ... [Read more](#)

**In the back stage of Guichon Valves**

Located at the heart of the French Alps, Guichon Valves is opening the doors onto its production through this new video.  
Find out our individual know-how build over more than 90 years :

- ▶ Cast and welded construction
- ▶ Full product traceability
- ▶ Machining on 5-axes CNC machining centres, lathing, boring, milling, ...
- ▶ Welding (including special allied raw materials Uranus B6®, Duplex steels, Nickel and Nickel alloys (Alloy 20, Hastelloy®, Inconel®, Incoloy®, Monel®), Titanium, Tantalium and Zirconium)
- ▶ Dimensional controls and PMI tests
- ▶ Tightness tests : hydrostatic, pneumatic, with Helium or liquid Nitrogen. Tests certificates provided.
